Notwithstanding the restricted status of land shown on the aforesaid plan as “proposed function hall access corridor,” Weston shall have the non-exclusive right to pass and re-pass on foot and by vehicle over said corridor, as ancillary to and for the benefit of the land herein released.

SECTION 2. As a condition precedent to the release of the 7.7 acre parcel from the APR, Weston and the department shall execute and cause to be recorded an amendment of the existing restriction, said amendment placing a currently unrestricted parcel of 8.0 acres, owned by Weston, under restriction in accordance with the terms and provisions of the original APR as amended, the 8.0 acres thereupon and thereafter to be subject thereto. The 8.0 acre parcel lies easterly of Hollow Road in Brimfield Hampden County, Massachusetts, and is as shown on a plan of land entitled “Plan of land in Brimfield, MA prepared for Ronald N. & Linda M. Weston (owners)” by Roger Woods & Co., said plan being recorded with the Hampden Registry of Deeds at Plan Book 354, Plan 93 and labeled as “PARCEL TO BE ADDED TO AGRICULTURAL PRESERVATION RESTRICTION AREA 8.0 acres.”

SECTION 3. As a condition subsequent to the release of the 7.7 acre parcel from the APR, Weston, and their heirs, successors, and assigns, shall cause a certain percentage as specified below of the annual total gross revenues from any commercial or other business operations on the 7.7 acre parcel, including but not limited to a wedding and banquet operation,

to be annually devoted to enhancing the agricultural productivity of the remaining APR land, for so long as the 7.7 acre parcel is used for a commercial or other business purpose. For purposes of this Section, enhancements to the agricultural productivity of the remaining APR land shall be those proposed by Weston and approved by the Department, and shall fall within one or more of the following six categories:

(1) implementation of a Best Management Plan and Nutrient Management Plan for Christmas Tree production developed in accordance with industry standards, said plan and the implementation thereof to be reviewed and reported to the department by an independent third party mutually satisfactory to Weston and the department on a two year basis; (2) implementation of a Resource Management Plan developed for all of the APR restricted land, said plan and the implementation thereof to be reviewed and reported to the department by an independent third party mutually satisfactory to Weston and the department on a five year basis; (3) implementation of a Nutrient Management Plan developed for all of the APR restricted land, such plan and the implementation thereof to be reviewed and reported to the department by an independent third party mutually satisfactory to Weston and the department on a five year basis; (4) implementation of a Manure Management Plan developed for Weston's equine facility approved by the department, said plan and the implementation thereof to be reviewed and reported to the department by an independent third party mutually satisfactory to Weston and the department; (5) development and implementation of a plan establishing Christmas tree production on the 8 acre parcel being added to the Agricultural Preservation Restriction, integrated within the Best Management Plan and Nutrient Management Plan for Christmas tree production set forth in Section 3(1) above; or 6) implementation of an approved NRCS farm plan. If Weston fails or neglects to make a proposal, the department shall select an enhancement

to productivity as the department's choice and so notify Weston.

On an annual basis commencing no later than one year after the effective date of this act, Weston shall cause a certified public accountant or professional with equivalent credential, reasonably satisfactory to the department, to provide to the department a written certification of compliance by Weston with the expenditure requirement set forth in this section. The certified public accountant or professional with equivalent credential shall have access to the original financial books and records of Weston, their successors, lessees, and assigns, and the original books and records of any other party conducting business operations on the land released under lease or other arrangement. The department shall have the authority to bring a civil action to enforce the provisions of this paragraph.

The percentages to be devoted to agriculture shall be as follows: 2% of gross revenues for the first two years of operation of the business on the 7.7 acre parcel following the effective date of this act; 4% of gross revenues for the next two years of operation following the effective date of this act; and 5% of gross revenues thereafter, provided that Weston shall not be required to expend in any single year or in the aggregate more than the annual cost of implementing a plan approved under this section.

As a condition precedent to the release of the 7.7 acre parcel from the APR, Weston and the department shall execute and cause to be recorded an amendment to the existing restriction, said amendment placing under restriction that portion of the currently unrestricted 30,000 square feet of land owned by Weston that lies outside the boundaries of the land proposed to be released under Section 1. Upon the recording thereof, this portion shall be governed by the terms and provisions of the existing APR as amended, thereupon and thereafter to be subject thereto.
